

2017 Reviewer Acknowledgment

As reaching the final issue, *Virologica Sinica* has successfully published two special issues and four regular issues with interesting and informative articles in 2017. The high quality of published articles reflects the significant time and effort dedicated by the peer reviewers, who ensure that the scientific content is at the highest possible standard. In addition to the members of our Editorial Board, *Virologica Sinica* would like to thank the following individuals for giving their time and expertise to review manuscripts for the journal in 2017 (from December 1, 2016 to November 30, 2017). Your service is both invaluable and greatly appreciated. We hope that you all will continue to support the journal as a reviewer or, better yet, as a contributing author. Apology is offered to any other reviewer whose name has been inadvertently omitted.
